**Introduction:**

*Four years and the war is still going on in Syria, with the loss of more Palestinian refugee victims, that required the monitoring and documentation team of the AGPS to document all Palestinian Syrian victims regardless their political affiliation or positions.*

*The Group managed to document "2596" Palestinian victims were killed directly due to Bombing, clashes, torture in detention centers, explosions, siege, and others were killed indirectly; such as sinking while trying to reach Europe by what has become known as "Death Boats".*

*2596 victims distributed on all Palestinian refugee camps in Syria; such as Daraa in the north, Khan Dannon, Khan Al Sheih, Al Sayeda Zainab, Yarmouk, Jermana, Sbeina, Husseneia, Al Aedein in Homs and Hama, AL Raml, Handarat and Al Nairab in the south, in addition to the victims who died outside the camps in various Syrian cities, and who died outside Syria.*

*It is worth mentioning that this report concerns about documenting the statistics of the Palestinian refugee victims in Syria since the beginning of events till the end of December 4014, with no concern about identifying the actual doer.*

❖ **2596 Palestinian Syrian Victims were documented till the end of December 2014; including 46 refugees died outside of Syria:**

❖ *Distribution of Palestinian victims who died till the end of December 2014 according to the reasons of death:*

2596 Palestinian refugees died in Syria till the end of December 2014 for various reasons, as the bombing was the reason of the death of 985 refugees, including 33 were killed due to the chemical bombing that targeted their areas. Meanwhile, 532 refugees were killed during the clashes, 285 due to torture in the Syrian regime prisons, 267 by sniper shot, 158 due to the strict siege imposed on the Yarmouk camp, 84 were field executed, 68 were targeted, 58 were documented as unknown according to their families well, 35 were killed after being kidnapped, 39 were sank, 27 by Israeli fire, 68 were killed due to various reasons such as white weapon, burn, building collapsing, and suffocating.

❖ *Conclusion:*

*It is worth mentioning that the previous statistics were done by the AGPS documentation and statistics team, as the numbers are likely to increase because of the tense situation there that preventing the documentation of all cases, where many residents are reluctant to communicate with authorities about human rights for fear of harassment, as well as the difficulty of moving and communications also preventing, in many cases, without collecting adequate information about the victims.*

*In addition to that there are a large number of missing people who were lost during the disaster sinking "boats of death" in the Mediterranean early on October 2013, where hundreds of Palestinian Syrian refugees, who were on board, are still missing.*

*On the other hand, it should be noted that most of the reasons that led to the death of 2596 Palestinian victims, still exist, since many Palestinian refugee camps are still exposed to Shelling between now and then in addition to the continued strict siege on the Yarmouk camp.*

*Thus, the Group confirms that this report concerns on documenting the statistics of the Palestinian refugee victims in Syria since the beginning of the events till the end of December 2014, with no concern about identifying the actual doer.*
