### **Recent Updates**

*The documentation and monitoring team of the AGPS, coincided with the International Women's Day, announced that the group documented information about (340) Palestinian refugee women who died due to the war in Syria, while the number of Palestinian detainees women in the Syrian regime's prisons has reached (24) women.*

*This comes in light of the deteriorating situation of Palestinian women in Syria regarding humanity and living aspects, due to the siege imposed on the Yarmouk camp by the regular army and the Popular Front groups. In addition the regular army checkpoints prevent the Palestinian refugees of returning to their homed at Husseneia and Sbeina camps. Moreover, all residents of Handarat camp in Aleppo have displaced from their homes after the Opposition factions controlled the camp, as well as the difficult living and security conditions which the rest of the Palestinian camps in Syria are suffering of.*

*It is noteworthy that the total number of the Palestinian victims in Syria, who have been documented by the AGPS, has reached (2681) Palestinian victims.*

*On the other hand, the AGPS received news about unknown group who tried to kidnap the relief activist and the journalist, "Abdullah al-Khatib," while this attempt failed after many assassinations that targeted activists from the camp, which the killers were not identified and it was registered against X.*

**Abdullah al-Khatib**

*The NGOs working in the camp announced the resumption of food aid distribution starting on Monday, where amounts of urgent relief aid were distributed in the last few days. The relief aid consisted of 1222 baskets, in addition to complementary share to the basket, which reached during the three days to more than 4,000 packs of bread, 2,000 jam cans, and 2000 Kilo of dates. The Syrian army and the General Command continue the siege of the Yarmouk camp for (610) days respectively, as they cut off electricity for more than (690) days, and water for 180 days respectively, while the number of the siege victims has reached (172) victim.*

*In the same context, the army and the security Syrian forces continue to cut the water in the refugee camps of Yarmouk and Daraa camps for 180 as collective punishment carried out by the Syrian regime forces, as a result of the infiltration of a number of opposition fighters from the Yarmouk refugee camp through the sewage network to leave the camp.*

*The water cut continued for 327 days in Dar'aa camp which made securing drinking water as a daily burden for the residents of the Yarmouk and Dar'aa camps where the residents were put in a situation to buy water in high prices but the majority were forced to drink from the contaminated water wells due to the shortage of financial; resources that led to the spread of skin and stomach diseases in a time that there is no medical treatment due to the siege.*

### ***The Water Crisis in Yarmouk camp***

*In Damascus Suburb, the residents of Khan Danoun residents suffer of severe living crises manifested in the shortage of food materials , the spread of unemployment , poverty and the continues water ,power, telecommunications cut for long periods.*

*In addition, the clear absence of the relief activities in the camp increased the suffering of the residents in light of the difficult economic conditions because there are no charities or local committees in the camp due to the security tightening by the Syrian Regime forces and the arrest campaigns that affected the relief activists which prompted these committees to close their doors in order to maintain the lives of the activists. Khan Danoun is considered amongst the poorest camps in Syria where the camps depend on the financial and relief aids that are presented by UNRWA once in a while. It is mentioned that the AGPS documented about 27 victims from Khan Danuon camp who died during the ongoing war in Syria and also it documented 5 detainees in the Syrian Prisons.*

*In Lebanon, a number of Palestinians of Syria refugees from Ein El Helwa camp in south of Lebanon organized a sit-in to demand rescuing the Palestinian camps in Syria and to break the siege of the Yarmouk camp for Palestinian Refugees.*

*In Turkey, the Palestinians of Syria Committee in Turkey distributed some of food aids provided from Al Wafaa European Campaign on a number of Palestinian families in Osmaniye city south of Turkey. It is mentioned that the number of the Palestinians of Syria refugees who escaped the war in Syria is from 3000 to 5000 refugees, most of them entered the Turkish territories using irregular ways due to the rejection of the Turkish Embassy in Lebanon to give them visas to enter Turkey.*
