Khan Danun Camp citizens in Damascus suburb are haunted by the specter of the transportation crisis, where they become searching for a

solution for the crisis since the beginning of the war in Syria in 2011. The crisis in their view point is not just securing the transportation vehicles from and to the camp, which is located 23 Kilometer far from the south of Damascus. Transportation became one of the big problems for the citizens such as the drivers who exploit the citizens by raising the payment of the transportation according to their mood. The drivers also impose the plan of the journey, where they reach people to Al Koswa town and the people will be obliged to get more than one transportation means to reach their destinations, which adds a big financial burden on the citizens.

Khan Danoun citizens who delivered many complains earlier demanding all the concerning parties and the Palestinian factions and the governmental organizations to find an immediate solution to the crisis, which is negatively impacted the economic and living situation. The crisis also impact of preventing the students and employees to reach schools and universities. There is a complete scenario to keep the crisis due to the concerned parties silence and not interfering to put an end to the suffering of Khan Danun camp's citizens
