VICTIMS

The Palestinian Syrian refugee "Hasan Hasida" from Sayida Zanab camp was killed in clashes with armed opposition forces in Aleppo.

It is noteworthy that the pro-regime armed militias induct many Palestinian Syrians for money, taking advantage of the harsh living conditions and poverty and unemployment inside the camps to send the youth to the battlefronts under the context of protecting the camps.

The AGPS has documented 45 victims from Sayida Zaynab camp killed due to the ongoing conflict in Syria.

RECENT UPDATES

On the international Day of Human Rights, the AGPS confirmed that it managed to document killing of (426) Palestinian refugees under torture in the prisons of the Syrian regime, after being arrested by Syrian security forces.

The monitoring and documentation team in APGS pointed that at least (1018) refugees are still under arrest or enforced disappearance, while (3076) victims were killed due to different reasons.

In a relative context, The Palestinian Return Centre PRC, based in London, presented its periodic brief about the human rights status in

Palestine and diaspora camps to the members of the British Parliament in the World Human Rights Day, which falls on December 10, 2015.

This brief discussed the situation of Palestinian Syrian refugees and their continuing catastrophe for more than four years, and reminded of the Universal Declaration of Human Rights, article no.9 and article no.13 which ensure the refugees' right of return, and article no.15 which ensures everyone's right to a nationality which millions of refugees are deprived of.

The brief included, also, an explanation about article no.17 which prohibits depriving anyone from his home and properties, which Israel used to violate since its establishment through its expansionary policies based on the continuous displacement of the Palestinians everywhere especially in Jerusalem and West Bank.

Moving to Damascus Suburb, the medical staff of the Palestinian Red Crescent transported in ambulance 13 children from Al- Tira evacuation center in Dummar town to Jaffa hospital in Mezzeh, as a result of their exposure to the smoke of electricity generator near their class, eight children remained in the hospital for treatment.

It is to be mentioned that Al-Tira evacuation center (school) hosts Palestinian families displaced from Al-Yarouk camp and Al-Tadamon area, where the UNRWA helps them in these centers. The UNRWA estimates the Palestinians in its evacuation centers at 8000 refugees.

In a different topic, the surrounding areas of Khan Eshieh camp in Damascus Suburb were hit by two explosive barrels at least dropped from Syrian warplanes, which caused fears and tension state to the civilians inside the camp. This comes under the continuous closure of all roads that lead to the camp by the Syrian Army, except Khan Eshieh – Zakiya alternative road.

The AGPS has documented 141 victims from Khan Eshieh camp, the majority of them were killed due to the shelling.
