*In Lebanon, the Palestinian Syrian refugees live in a worry state due to of the security tensions because someone from the Syrian Opposition has executed a Lebanese soldier which made huge discrimination actions against the Syrian refugees in Lebanon that negatively impact the Palestinians of Syria in Lebanon. These causes prompt them to think to leave Lebanon but the closing of all the world doors in their faces let them not to leave. Jordan, Iraq, Turkey and Golf Countries prevent the entry of the Palestinians of Syria to enter their lands but under some difficult conditions which are not applied on them specially those conditions of having a long period residency of Arabic or Western stable countries.*
