Recent Updates

News from the besieged Yarmouk camp reported that Al Nusra front and Abnaa Alyarmouk movement have preceded yesterday towards the western area of the Yarmouk camp at the axes of Al Ansar group allegiance to ISIS. Al Nusra regained control over several blocks behind the Al Aman medical Compound, while a large number of ISIS members were killed during the clashes. Al Nusra front spread snipers to prevent ISIS proceeding, while ISIS proceeded towards Safoureaia Street in order to put pressure at the end of Haifa Street controlled by Nusra for alleviating the pressure on the other axes.

Furthermore, activists accused the Syrian regime of being harmoniously work with ISIS through media and in field work in the Yarmouk refugee camp, where activists documented the harmony in media publications of ISIS and the PFGC pro-Syrian regime. Meanwhile, regime forces stationed in Al Qaa'a barracks continue to target areas controlled by Nasra Front in Yarmouk, as Palestinian factions affiliated with the Syrian regime targeted Al Rija Square yesterday with mortars in an attempt to drain Al Nusra Front after the failure of ISIS, according to activists.

Residents of the Yarmouk camp are suffering of tragic conditions due to the continuous siege imposed by the Regular Army and the affiliated groups alongside the GC groups for 1061 days respectively. Power cut for more than 1122 days, while water cut for 611 consecutive days, as medication and food still prevented, and residents are still prevented to leave or enter the camp. Dozens of families, who are besieged in their houses due to the clashes between ISIS and Al Nusra, are suffering of the loss of food, medication, and water.

On the other hand, Syrian warplanes dropped 8 explosive barrels at the eastern cemetery, Al ISkan military area, and the vicinity of Al Abaseya farm in Khan Al Shieh camp in the western suburb of Damascus. An explosive barrel targeted Al ISkan Street and destroyed a civilian empty house with no injuries.

The Syrian regime forces located at the adjacent areas seeks to impose siege over Khan Al Shieh camp, and to close Zakia-Khan AL shieh road, which would prevent food entry for being the only remaining road for civilians.

The AGPS has documented 153 victims since the beginning of war in Syria, in addition to 108 prisoners, who are still unaccounted for such as hundreds of detained refugees.

Clashes broke out yesterday south of Syria with heavy and medium weapons between the Free Army affiliated with the Syrian armed opposition and Al Mathna brigade alongside Shohadaa Al Yarmouk

affiliated with ISIS. Clashes erupted at Al Shajara and Ein Thazar villages near Al Muzareeb town where tens of Palestinian families live.

Palestinian refugees in that village are suffering of the complete absence of relief services, such as UNRWA or other relief convoys.

On the other hand, UNRWA received financial support worth \$ 8 million from the Kingdom of Sweden, to support emergency relief efforts for Palestinian refugees in Syria and the occupied Palestinian territories. Mr. Michael Kingsley, Director of UNRWA's affairs, confirmed, in a statement issued on Monday 09/05/2016, "this donation will enable UNRWA to continue to provide urgent and vital humanitarian aid for most affected Palestine refugees by the armed conflict in Syria, including those in Yarmouk camp in Damascus and Aleppo".

Mr. Michael Kingsley also added that this donation shows that Sweden bear in mind the great vulnerability experienced by Palestine refugees in Syria, and also demonstrates that Sweden is a real partner for UNRWA in the Agency's efforts to strengthen the resilience of those refugees".

At the conclusion of its statement, UNRWA noted that "more than 60% of Palestine refugees who remain in Syria, totaling 450,000 refugees, are internally displaced and most of them almost dependent on UNRWA for aid, they include tens of thousands of people who are trapped in active conflict zones and who suffer from very restrictive ways to gain access to humanitarian aid.

Meanwhile, the Charity Committee and the PRCs continue to provide medical services and distribute medications for Palestinian families who were displaced from the Yarmouk camp to the adjacent town Yalda, for the third consecutive day. According to the campaign organizers, the number of beneficiaries from the distribution of medicines and medical examination has exceeded 400 people.

It is worth mentioning that ISIS control over the besieged camp in April / 2015 has forced hundreds of Palestinian families to leave their homes and flee to neighboring towns, and that after Al Nusra groups facilitated imposing control of ISIS over the besieged camp.

Palestinians of Syria; Numbers and Statistics till 11\05\2016:

- *15500 Palestinian Syrian refugees are in Jordan*
- *42.500 Palestinian Syrian refugees are in Lebanon*
