Greece

A number of Palestinian Syrian and Syrian refugees, who were rescued by the Cypriote Greece coast guards on 26/9/2014, in charge of illegal immigration, as they were placed in one of the refugee camps, performed a protest in front of the Greece Parliament in Syntagma square in Athens protesting on their humanitarian bad situations demanding to solve their case and allow them to immigrate to the European countries.

It worth mentioning that the Greek authorities become treating with the refugees, who came to their lands to immigrate to the European countries, in an inhumane ways, as On 11/12/2013 the Greek coast guards caused death of the child Abdelrahman Al Sadi and his Mother Maha Al Sadi due to the drowning of their boat.

According to one of the survivors' testimony, members of the Greek coast guards pulled them back to the Turkish water which led to the sinking of the child and his mother.

The Authorities arrested 108 Palestinian refugees including 25 children and 36 women and a number of wounded on 20/8/2014 during their trial to travel to one of the European countries through its airport in charge of illegal immigration and detained them in the Greek Symi Island, then they were released after the interference of a number of Human rights organizations and International organizations. Similar incidents were recorded few weeks ago, where one of the migrants said that the Greek Authorities pulled their boat in the sea and left them in the Turkish Regional Water and they were rescued by the Turkish coast guards.

Syrian refugees in Karmouz prison in Alexandria who are detained under the charge of illegal immigration.
