### **Action Group**

*Under the title of " Palestinians of Syria between travelling and vanishing", both of Action Group for Palestinians' of Syria and the Palestinian Return Centre had set a documentary field semiannual report about the situations of Palestinians' of Syria between January till June from the year 2016.*

*The report talks about the related issues of Palestinians' of Syria in seven fields. As top priority, it focuses on Palestinian refugees in camps and the Palestinian gatherings inside Syria. Such as Yarmouk Camp, Khan Al Sheih's camp, AL Saieda Zainab camp, Husainyia camp, Sbeina Camp, Jermana camp, Khan Danoon camp, Dara'a Camp , Nairab camp , Handarat camp , Al Aedein Camps in Homs and Hammah , Raml camp and Ladiqyya camp.*

*The second field discusses the suffering of Palestinian refugees from Syria to the new diaspora in each Lebanon, Gaza, Turkey and Europe. In the meantime, it allocated four fields to talk about the troubles and risks which encounter the refugees while immigration, the alternative ways of*

*immigration, the cause of trapped people because of immigration and the supportive attitude of the European institutional for Palestinians' of Syria.*

*It\_ the report\_ specifies a special field to explain the issue of Palestinians' victims and prisoners. It includes a documented survey of victims and prisoners for the Action Group for Palestinians" of Syria. According to the report, Action Group has documented the death of (3247) Palestinian victim inside Syria due to the hostilities. And also outside Syria in their way to reach Europe or getting killed in fatal accidents in their new shelters since the beginning of bloody events in Syria till June 2016.*

*During the first six months of the year 2016 (173) Palestinians passed away, (115) of them were civilians while (58) an armed Palestinian died during the fight alongside with the regime or the opposition.*

*The report confirmed that there are still some camps in which all of their inhabitants were displaced from their own places. For instance, the inhabitants of Sbeina and Handarat Camps. And other camps were abandoned by half or most of their people. for example, only 3000 people or less was left from the original population of Yarmouk camp (220,000 people) before the events in 2011. Similarly, Sheih's camp was also abandoned from more than the half of its people. It's now contains nearly 12000 people out of 22000 before several years.*

*The report indicates that most of the immigrant and displaced people have been distributed either in regime's dominance zone or in the opposition's dominance zone. While other immigrants chose to live in the*

ring states (Lebanon, Syria, Jordan and Egypt), EC's countries (European Union's countries), East Asia and the Americas. It also indicates that 80,000 Palestinian refugees have reached Europe till the second mid of 2016.

*It's a 120 page report which document the events and violations that Palestinian-Syrian refugees have been through during the first mid of 2016 according to the observation process by a collection of field reporters, researchers and interested people in the Palestinian cause.*

*The report introduces accurate details about the Palestinian camps and gatherings inside Syria in a method that portrays the standard of living, field, humanitarian and healthy situations for Palestinian refugees in Syria. In addition to the daily top stories of destruction, bombing and arrest.*

*It's worth mentioning that there were four preceded reports had documented the events of the two mids of the years 2014 and 2015. In addition to a "situation report" and many special reports that addressed specific issues which are related to the Palestinian Syrian affair.*

### **Recent News**

*On Monday morning, the regime's army targeted the houses of Eastern and Western lane in Sheih's camp in Damascus camp. A lot of shells fell*

*above civilians' houses, two of the shells, which fell above the Eastern lane and Rida street, caused only material damages. And during the last two days 25 barrel bombs were dropped by the Airforce around the camp. In specific the areas around (Al Saeed street , Skaik and Autostrad Al salam) .while the news confirmed that 4 helicopters were taking their turns in shelling the camp which freaks the people of the camp out fearing from being targeted.*

*It's noteworthy that there were no signs of any armed existence inside the camp. Action Group's reporters and the repeated data from NGOs inside the camp had also supported the same opinion.*

*Yesterday, Handarat camp was being under attack with all kinds of bombings, while the towns and regions around it witnessed fierce clashes between the armed Syrian opposition groups, the regular army and Al Quds brigade group which follows the Syrian army.*

*All refugees in the Handart camp have been forced to flee from their encampment after violent clashes broke out before about 1235 days*

*which ended with the opposition-controlled whereas Palestinian refugees live in difficult living conditions caused by displacement, continuing war in Syria, their repercussions on the economic situation, weak financial resources, widespread unemployment, rising rental houses, shelling and sniping and outsmart.*

*On the other hand, there were several messages received from the Palestinian - Syrian refugees in Lebanon to the Action Group for Palestinians of Syria. the news about the General Security's decision was confirmed, which stated 300,000 lira (about 200\$) on Palestinian- Syrian refugees who were displaced to Lebanon In order to renew their residence permits for six months only.*

*In one of Action Group declarations', one of the Palestinian refugees' states that he was surprised when he went to the General Security in order to renew his residence permit then the security guy asked for 300,000 lira (nearly 200\$) to do so. Replaying for his question that the renewal of residence permits' process is for free; he adds that this is due to the new decision of General Security which, sets fees to be paid by the*

*Palestinian- Syrian in order to extend the residence permit, will be implemented by the beginning of September.*

*In return, Palestinian – Syrian refugees demanded the embassy, Palestinian parties, PLO and UNRWA to do urgent procedures in order to push the Lebanese government to cancel the fees.*

*During a telephone interview, Dr. Mahmoud Hanafi, the Palestinian Association for Human Rights director (Shahed), said that he communicated with a number of legal authorities which assured that the Lebanese General Security have already c this decision and circulated it to all general security centers. So, every Palestinian – Syrian has to pay the fees unless there are other international organizations will cover the fees of renewing Palestinians'- Syrian residence permits in Lebanon.*

*In his opinion, the Palestinian interviewer "Fayez Abu Eid," consider the imposition of 200\$ by Lebanese government upon the Palestinians-Syrian refugees in Lebanon to renew their residence will cause a real crisis for them. Moreover, it will increase their financial burden. So any refugee spent all of his\her residence period (six months) he\she should renew his residence which cost 200\$ per person. And if the family is consisted of 10 people it will cost 2000 \$.*

*Moreover, the Lebanese government considers the Palestinian refugees from Syria to Lebanon as " emigrants". And that means to drop its duties towards Palestinian refugees. The Lebanese government, General security in specific, witnesses political ups and downs towards the displaced Palestinian refugees from Syria. Sometimes it allows renewing the residence permits for two or three months. And after the Palestinian*

*refugee apply to get his\her residence, the procedures take too long it may take one month or two so that the Palestinian refugee won't have enough time before it is expired. To make it worse, the Lebanese government refuses to give the displaced Palestinians refugees any chance to work in Lebanon.*

*The Palestinian refugees, who were displaced from Syria, suffer from their deteriorated situation in all fields starting from their way of living, economical situations and ending with social problems. Unfortunately, their life is getting worse with their legal situations and how they are humiliated and disgraced especially when they try to get some formal papers to facilitate their lives from the Lebanese General Security centers.*
