Victims

The Palestinian refugee Saed Mohammed Al-Rashayda, an official of Fatah in Daraa Camp died due to torture in the prisons of the Syrian Regime after being detained for more than two years.

The AGPS monitoring and documentation team documented the death of 414 Palestinian refugees who died due to torture in the prisons of the Syrian Regime during the past few years.

Recent Updates

Ein Al Hilwa camp in Sidon south Lebanon witnessed large migration of displaced Syrian and Palestinian families on Monday night because of the violent clashes that broke out between Fatah and Jund al-Sham against the backdrop of the assassination attempt of the Palestinian national security official in Ein el-Hilweh camp, Mr. Saed Al Armoushi.

Rockets were used in the clashes, which led to the death of three victims and a large number of wounded, including the Palestinian Syrian refugee Izz al-Din Hayel Hamada from Sbeina camp.

According to the AGPS correspondent at Ain al-Hilweh, that Syrian and Palestinian families were forced to flee fearing for their lives and the lives of their children, as they have fled to Sidon municipality, Izz al-Din al-Qassammosque, and Alhanan Wedding hall.

The migration of Ein el-Hilweh camp residents

Our correspondent added that residents demanded all forces and authorities concerned to intervene to stop the bloodshed in the camp, which would only affect residents of the camp.

The displaced people launched a distress call to charity and civil work institutions in order to provide them with food and some supplies.

It should be noted that the number of Palestinian Syrian families displaced to the Ain al-Hilweh refugee camp is about 1400 family, and suffer from very difficult economic and living conditions, in addition to their unclear and unstable legal situation, especially with regard to residencies.

In this context, the residents of the Yarmouk camp in Damascus and Khan Al- Sheeh condemned sit-ins in solidarity with the people of Ein Al-

Hilweh camp in Lebanon in which the activists demanded halting the fighting and bleeding blood that is being shed in the camp.

The solidarity sit-in in Yarmouk camp

They also appealed to the Palestinian factions to intervene in order to restore security and safety to the camp and to return back its residents who fled from the camp. In addition, the activists carried banners written in it "Al-Yarmouk - Khan Al- Sheeh - Nahr Al-Bared - Ein Al-Hilweh are a witnessed camps on the plight of Palestine and the weakness of the nation", "Ain Al-Hilweh residents are shedding tears - Ein Al-Hilweh, Al-Yarmouk will be with you towards death ", " the warring parties in Ain Al-Hilweh, take a lesson from Nahr al-Bared."

On the other hand, the medical staff of the Palestinian Red Crescent Society organized a sit-in yesterday in front of a hospital in Palestine in the Yarmouk camp to demand "UNRWA" agency, the International Red Cross, Syrian Red Crescent , and the medical and humanitarian organizations to allow the entry of medicine and medical supplies to the camp due to the deterioration of the health situation in the camp as well as the suffering of the camp from a severe shortage of medicines and the

spread of many chronic diseases ,disease typhoid, and jaundice among Al-Yarmouk residents.

The Palestinian Red Crescent Society sit-in

On August 13, 2015, the "Medical and Surgical Rescue Center in the Yarmouk camp" appealed to the medical institutions and doctors Union to assume their responsibilities towards the trapped civilians in the Yarmouk camp since there have been cases of death due to lack of medicines and health care, and the lack of suitable possibilities.

On August 18, doctors of the Yarmouk camp also held a press conference for the working doctors under the title " disease and not medicine" on the Youth Support Centre inside the besieged camp in which it shed light on the medical and health situation dire in the camp and difficulties in their work to cure the residents of the camp. While on August 19, 2015, UNRWA said that 10 cases of typhoid disease had been confirmed among the people of the Yarmouk camp.

The media spokesman of "UNRWA," Sami Mushasha, confirmed on the outbreak of typhoid disease among the residents whom the United Nations provide assistance to them. In addition, he pointed out that the

priority of UNRWA is to provide humanitarian aid to civilians in Al-Yarmouk itself.

It is noteworthy that the regular army and groups of the Popular Front - General Command siege of the camp is considered the cause of the interruption of all hospitals and clinics from work due to preventing the introduction of materials and medical supplies.

As well as most of the relief agencies stopped working inside the camp because of the threat of state regulation ISIS who dominated the camp early last April in coordination and support from the members of the Al-Nusra Front. In the north of the Syrian, Al-Nusra Front for the Palestinian Refugees released "Muhammad Asad" and "Hamouda Hourani" residents of Al-Neirab camp who are working with the Popular Committees pro-Syrian regime in Aleppo after being arrested on August 20, noting that the Al-Nusra Front had announced its intention to timely submit it to the Sharia Court.

Arrest

Syrian security forces arrested the Palestinian refugee "Adham Dakwar" from Nairab camp at dawn today from his home without knowing the reasons behind his arrest.

It is noteworthy that the Syrian security forces and its pro groups; such as AlQuds brigade, stresses down on residents and conducting raids and searches of homes and arrest youth, prompting them to migrate to neighboring areas and Turkey.

Egypt

Egyptian authorities deported 10 detainees from Karmuoz prison to Sweden, while the third and final group, which was chosen by Sweden, will be deported on 15/09/2015; note that in 9-8-2015, a family of four members was deported, while the 11-member-group, which was chosen by France, is waiting for French approval for deportation.

A group of detainees had left Egypt after the approval of the German authorities to take them on 06.16.2015, and numbered 42, including women and children.

It is noteworthy that the Egyptian authorities arrested "56" Palestinian refugees from Syria while trying to reach Italy from Turkish beaches, where they were victims to a scam by smugglers who left them on one of the islands off the Egyptian beaches.

Hungary

The two Palestinian refugees, Hasan Al Wahibi and Kamal Hasan Al Wahibi, were lost at the Hungarian- Austrian border several days ago

while travelling to Europe, and up to the moment of writing no information or news about them.

It should be noted that the son Kamal is physically disabled, and they are from Khan Al Shieh camp.

It is worth mentioning that Hungary is one of the most important European countries of transit by land towards the countries of asylum, while refugees go Salonika at Greece, then Macedonia and Serbia and then Hungary and then to Austria.

However, many Palestinian and Syrian immigrants suffer due to their fingerprint, due to the rejection of the European asylum countries to give them residencies with exceptions; yet, the current decision would be a lifeline for immigrants, according to some analysts.

Civil Work Committees

Al Mutarahimon campaign, launched by Al Marhama campaign, in coordination with the Charity Committee, distributed 400 food baskets to Jaramana residents, as it prepared 2000 food baskets and 3500 school bags, in addition to baby milk to be distributed later to the residents of the Palestinian camps.

It is worth mentioning that most Palestinian Syrian families rely on aid, especially in light of the ongoing war, the worsening economic conditions, and the spread of unemployment.
