Recent Updates

Powerful explosions rocked Khan Al Shieh camp in Damascus suburb, as warplanes dropped two explosive barrels on the outskirts of the camp and the surrounding farms and areas with no injuries.

The Syrian army targeted Sharaf Street at the beginning of the camp yesterday morning by surface to surface missile, which resulted in mass destruction where it landed.

In a different context, power returned at homes and lanes of the camp after three days cut, while residents still suffer from major crises in transportation because of the continuing closure of all roads linking the camp and the center of the capital, a result of clashes and acts of repeated shelling taking place in those areas.

However, residents were forced to go through "Zakya - Khan Al Shieh" road despite the risks, where many cars were targeted during the past few months.

In terms of living aspect, the camp markets suffer from a shortage of many basic items and rising prices of available items.

Turning to the south of Damascus, where residents of Yarmouk camp refused the decision of Amir Al-Nusra Front 'Abu Khader', which bans children of the camp to go to Yalda town to participate in the Eid festival, which is organized by the Palestinian societies in the town as an initiative to bring happiness to the hearts of displaced children.

Nusra was not able to prevent people to go with their children after they insisted.

Al-Nusra Front is trying to impose their agendas on the Yarmouk residents after it took control with ISIS at the beginning of last April.

In the meantime, Palestine Charity Committee finished its annual project for the distribution of sacrifices at the fourth day of Eid, where the committee distributed approximately "3900" shares of meat to the Yarmouk residents who are displaced to neighboring areas in the south of Damascus (Yalda - Babbila - beitsahem), in addition to the besieged people inside the camp.

Meanwhile, relief organizations in the besieged camp also finished the projects of sacrifices distribution to the people of the Yarmouk camp.

In Damascus suburb, residents of Jaramana camp are still suffering from worsening economic crises, especially homes rent and the increase in demand, prompting them to live in stifling conditions in light of the high rates of unemployment among them.

This coincided with decreasing aid from charity organizations and UNRWA, which covers only a little part of their costs.

It is worth mentioning that Jaramana camp receives a large number of displaced families particularly from Yarmouk, Husseinia, Sayeda Zeinab, Sabina, and Deiabeia, which exacerbating their suffering and led to the deterioration of economic situation and rising unemployment.

Jaramana camp

Lebanon

The Lebanese General Security released the Palestinian Syrian Refugee Ahmed Ghazi Saleh, 20 years from the displaced residents of Al Sbeina

camp at Ein Al Helwa camp, as he was arrested 10 days ago in charges of expired residency.

It is referred that the arrest cases spread tension and worry state amongst the Palestinians of Syria in Lebanon who are estimated with 45000 refugees fearing to be transferred to Syria.

The arrest campaigns led them to be prisoned at homes and areas they live which increased their economic burdens.

The Palestinians of Syria in Lebanon accuse the Palestinian factions in Lebanon of being reluctant in front of media; moreover, they accused the Palestine Embassy of planning to marginalize their issue.

Statistics

The AGPS documentation and monitoring team announced that 10 PLA members died during September 2015; they are:
