The statement issued about the evacuation of khan danoun camp

The statement insured that after the appointed time the camp will be targeted with shells, and insured that the factions do not hold any responsibility if any civilian in the camp was injured after the time finishes. The Action Group for Palestinians of Syria was not able to make sure of the credibility of the statement from another source.

In a different context, Handarat camp witnessed heavy clashes in the morning between the Regular Army and Groups of the Free Army, coincided with the targeting of Handarat in several explosive barrels by the warplanes amid news about the control of the Regular army on Al Jandoul square and Handarat village which are near the camp. It is mentioned that groups of the Free Army controlled the camp completely after heavy clashes with the Regular Army.

On a different side, Al Adha Eid comes on the Palestinians of Syria while they are in crises that are increasing each day. The residents of the besieged Yarmouk camp for more than 440 days suffer of the complete water cut on the houses of the camp for 25 days which increased the living crises because of the siege of the Regular Army and the PFGC. It is mentioned that the checkpoints of Regular Army and the PFGC prevent the entry of food supplies and the basic materials to the camp which led to 155 victims because of the lack of food and health services. Sounds of clashes were heard in the evening hours between the Regular Army and Groups of the Opposition coincided with bombing that targeted Al Mashrou and Al Thalathein Street.

On the other side, the residents of Al Husaneyya and Al Sbeina camps are still prevented to return back to their houses by the checkpoints of the Regular Army after clashes that broke out between the Regular Army and some Palestinian factions loyal to it from one side , and with the Free Army on the other side, the clashes ended with the full control of the Regular army on Al Husaneyya camp in October 2013 and on Al Sbeina camp in November 2013. The activities which call to return back to the residents houses are still going on. It is mentioned that the residents were distributed on the surrounding towns and camps which added more economic burdens especially with the high cost of rent houses and the spread of unemployment.

In Aleppo, the sounds of heavy explosions rocked Al Nairab camp for Palestinian refugees in Aleppo; it was shown as due to heavy clashes in the vicinity of Al Nairab Military Airport from Al Masaraneyya side between the Syrian Opposition and the Regular Army.

In Damascus city, Khan Al Shaih witnessed warplanes hovering over the camp coincided with frequent targeting to the surrounding farms. It is mentioned that the surrounding areas witness a notable tension in the previous days which led to the continuation of roads cut that connect the camp with the city center.

On the other hand, Dara'a camp for Palestinian refugees suffers of the complete absence for the basic services specially the health services because of the big damage in the infrastructure due to targeting the camp with the frequent bombing and clashes. The bombing and clashes led to

stop the health services in addition to the power and water cut frequently which pushed dozens of families to leave to the surrounding villages.
