Lebanon

The Lebanese authorities still prevent the Palestinians of Syria refugees to enter the Lebanese lands. The Action Group received many complaints from the Palestinians of Syria about that the Lebanese General Security who prevents them to enter Lebanon though they have the requested documents. Because of these decisions, a number of Palestinians of Syria families failed to make interviews with the European embassies to be united with their families. It is mentioned that most of the European countries closed their doors in Damascus because of the ongoing conflict in Syria.

In the same context, the Palestinians of Syria refugees activists in Lebanon called for a sit-in in front of the office of the UN High Commissioner for refugees in Beirut behind Spens on the 9th of September 2014 to call to change the place of the Palestinian refugees file from UNRWA to the UNHCR and opening passages of immigration to outside countries. The protesters will deliver a message to the high commissioner that explains the suffering of the Palestinian refugees in Syria and Lebanon and the ride of death boats and in his turn he will deliver their message to the high level of the UN High Commissioner.

These actions come out because of the absence of the Palestinian factions and organizations to alleviate the Palestinians of Syria refugees suffering on the political and social level in the Arab Countries which led the Palestinians of Syria refugees to ride the boats of death heading to Europe and the call for immigration. As if the Palestinian was left to choose compulsory ways and projects that are not serving the basic issue which is to return back to his land Palestine.
